Pilot Flight Evaluation Paperwork Policy

In order for pilots to be released they must appear on the FRO Support Report. For this to happen it requires that pilot data be entered and validated in the Operations Qualifications section of EServices.

It is the individual pilot's responsibility to enter any changes to their pilot data (check ride, medical, certificates, etc.). The instructions may be found in the Operations Qualifications & e-Services Basic User's Guide. A link to this manual is on this page in the Resources Section.

The source documents are then sent to the Group DOV for validation (electrons preferred). When validated, the job is done.

FOR THE COMMANDER
