1007-4, 1008-4

SUI-Safety Requirements

Has the unit safety officer developed a program of regular safety education and accident prevention training for the unit? Does this program:

Deliver no less than 15 minutes per month (or 3 hours per year) of face-to-face education and training to the membership?

At least once annually, discuss Operational Risk Management (ORM)?

Ensure new members will receive ORM familiarization training?

Provide current members with an ORM review?

Report topics covered and total members attending to the next higher echelon of command?

What is your process to ensure all members receive the safety education and accident prevention training?

What other squadrons are saying about Safety? Q&A, Etc.

Tip of the month:

Hello All,

Since we all spend time outdoors in an environment that brings us into the tick habitat, I wanted to bring to your attention this handbook called the **Tick Management Handbook**. Enclosed is the link to this valuable information. It's in Adobe format and it's a pretty large file, approx 5MB. It's a well done document with lots of information, pictures, and most important, what to do! This would be good to keep for reference, helping to keep yourself, and those who venture out with you, safe!

<http://www.ct.gov/caes/lib/caes/documents/publications/bulletins/b1010.pdf>

Please pass this information on if you know of someone else who may benefit from it.

Lee Adams, 1LT CAP
Safety Officer, Squadron 103
Cell: 215 858 1610

To the squadrons in our group,

You have all made a considerable effort in helping to keep our group strong and current, for that we **thank you all**.
