

*Pilots, Observers and Scanners -
In the event of an aircraft crash, would YOU have
the skills to survive until help arrived?*

What you should always fly with?

In 2007, Civil Air Patrol Crews flew over 108,000 hours in combined Corporate and Air Force missions. What would you do in the event your aircraft crashes?

When: July 12 -14 2009

Hawk Mountain Ranger School will host a CAP Air Crew Survival Course. This course will cover the following topics, and more:

Egress Training

Initial Survival Concerns

CAP Aircraft Survival Kit

The WILL to Survive

Improvising Equipment

Communication - Signaling

Land Navigation

First Aid - Personal Hygiene

Nutrition - Water Procurement

Basic Survival Skills for all Regions

Shelter - Weather - Fire Building

Practical experience of survival

Sunday Morning 0800 Check in - Hands on outdoor classroom training

Monday through Tuesday Practical Survival Experience in the field

Tuesday evening 1800 Graduation
